Robin Hood Curriculum Compilation

Welcome to our Curriculum Compilation! This compilation celebrates the fantastic work that has happened in our foundation subjects here at Robin Hood. I hope you enjoy looking at a snapshot of the amazing range of learning opportunities our children have enjoyed since September!

Many thanks for your support,

Tell us what you think of our Curriculum in this short survey!

Mr Overton

Curriculum Lead and Deputy Headteacher

Art

Year 3 explored printing. Each child created their own printing block based on rock formations.

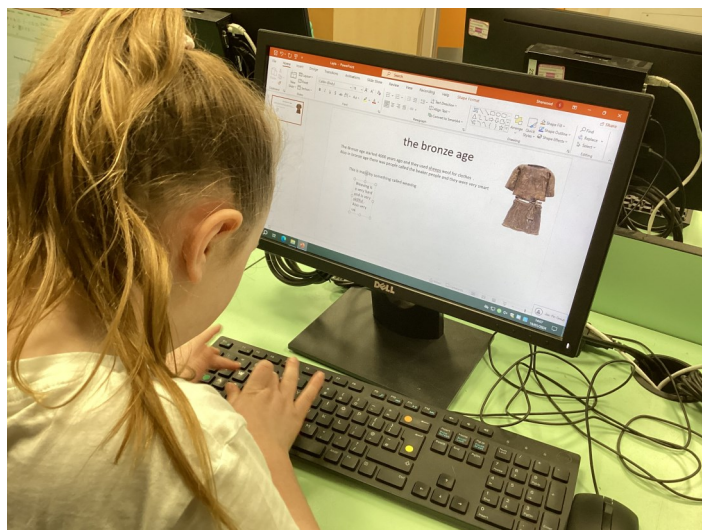

Year 4 explored mouths. They investigated the shape and shades, creating their own skin colour and creating a giant mouth artwork.

Computing

In Year 6 the children have developed their programming skills to create computer games using Hopscotch.

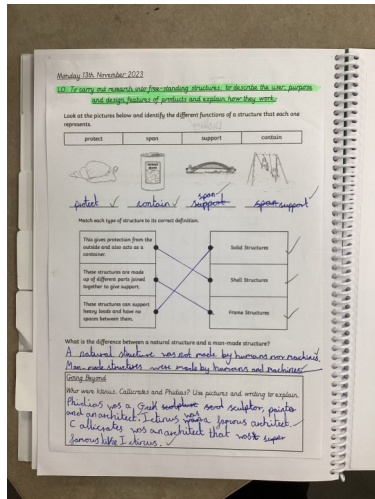

Year 3 are making PowerPoint presentations; these present their project Essential Question: Which invention had the most impact?

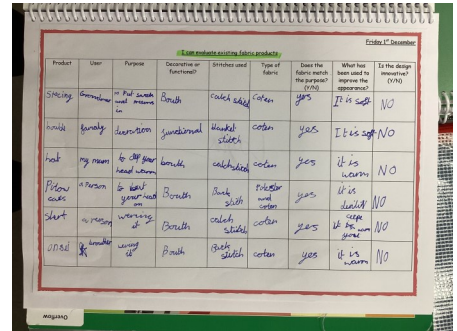

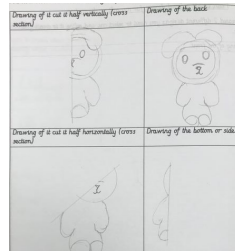

Design and Technology

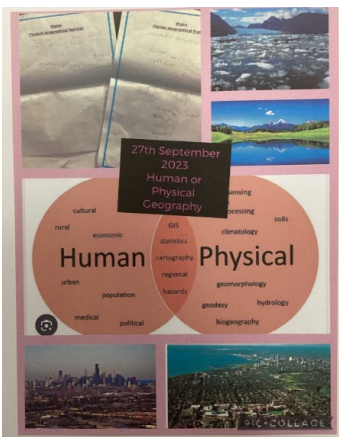

Year 5 investigated structures before creating their own Greek-inspired structures on Tinkercad.

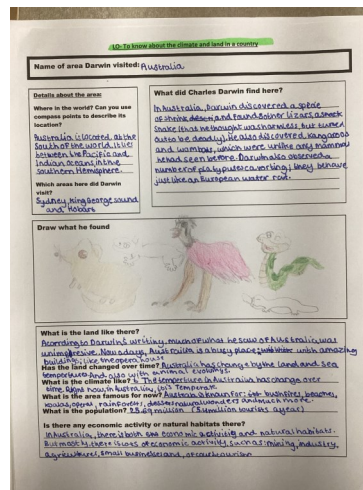

Year 6 investigated different fabric materials before designing and making their own fabric toys.

Geography

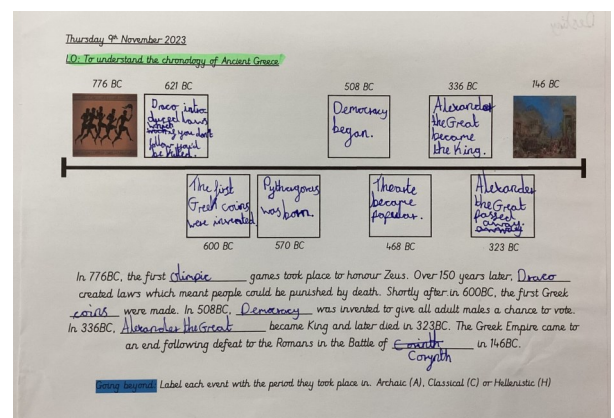

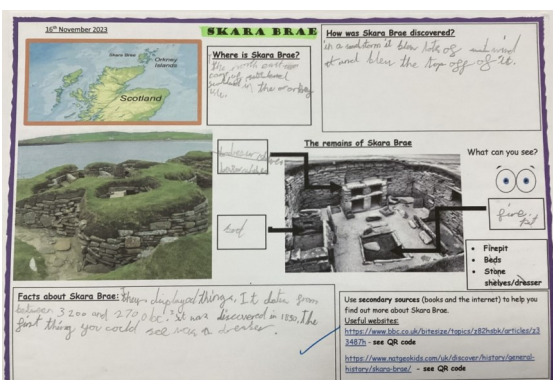

Year 3 have been learning about human and physical geography and linking this to the UK. After looking at regions and counties of the UK, children then studied rivers, mountains and lakes in the UK and applied their knowledge of physical geography.

Year 6 spent the Autumn Term learning about the journey that Charles Darwin took around the world. After plotting his travels on a map, children used the 8 compass points to describe the direction he travelled in. Finally, Year 6 chose a country in which Darwin visited and researched his findings.

History

Year 3 have been looking at Skara Brae and what life was like there during the Stone Age. They looked at different artefacts to see what they could find out.

Year 5 started their History of Ancient Greece study by looking at some of most important dates in the Ancient Greek timeline. They used their chronological skills to order the events and researched facts about them.

Physical Education

The School Basketball Team have played regular fixtures against other schools.

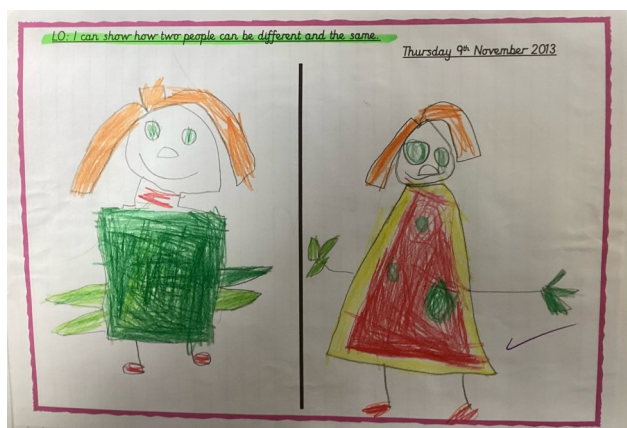

Year 3 have been studying Samba Dancing in PE. They have practiced the Samba Roll, Shimmy, Clap and Wave.

The children put these movements into sequences in small groups.

Personal, Social and Health Education

Year 1 have been looking at how two people can be different and the same, and that it is good to be different.

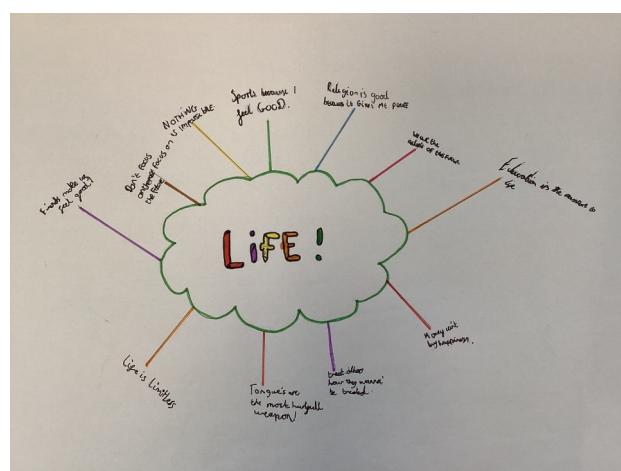

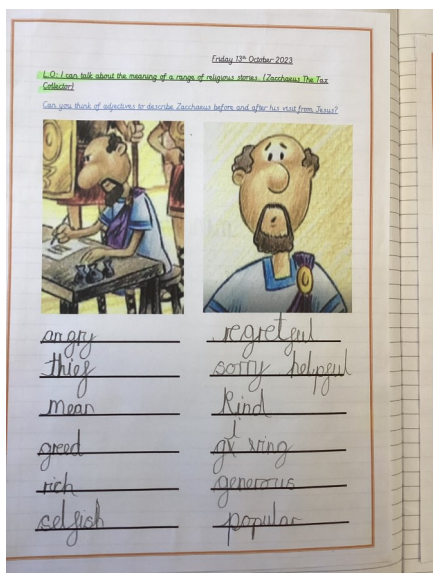

Year 1 have also been looking at how we feel when we are anxious or nervous about something. Then we discussed who we talk to when we feel worried about something.

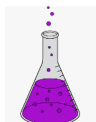

Religious Education

Year 2 have studied the Christian story, Zacchaeus the Tax Collector. The children generated adjectives to describe Zacchaeus before and after his experience with Jesus.

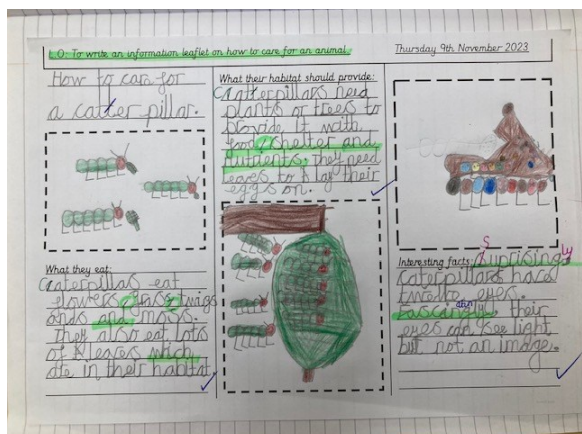

Year 6 have discussed and then made posters to show what Life means to them.

Science

Year 2 have been learning about living things and their habitats. They have researched using secondary sources and showcased their learning in these superb leaflets.

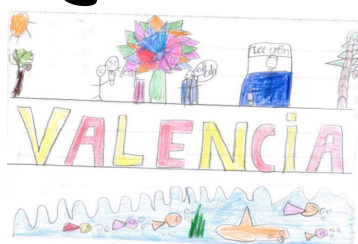

Year 4 have been learning all about the human body this term. They have enjoyed using the Virtualitee app to explore the organs involved in digestion, and created their own working models of the digestive system!

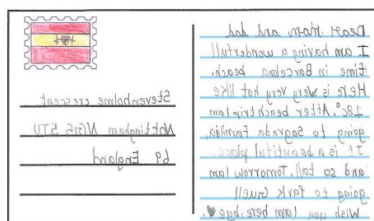

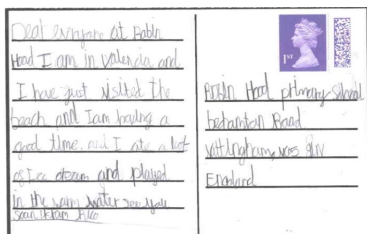

Spanish

For Dia Espanyol (Spanish Day!), the whole school wrote postcards from Spanish cities!

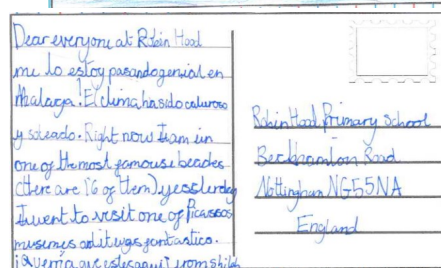

Year 3

Year 4

Year 5

Music

Children in Year 2 (left) practiced samba drumming to play at the Rainforest Fashion Show.

Year 4, 5 and 6 treated parents to a fantastic show in the In Harmony Christmas Concert.

An inspiring and enriching curriculum which broadens horizons...
