By the end of this unit we will know:

I know how to use shading and cross hatching.

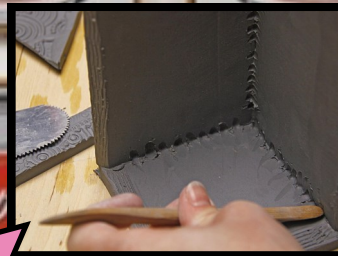

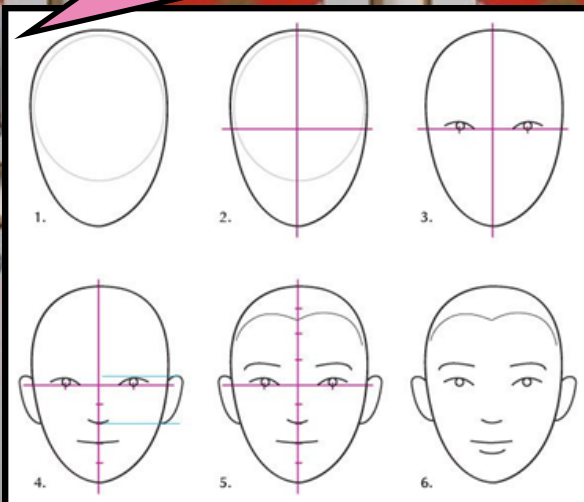

I know how to use facial proportion guidelines when drawing a portrait..

I know how to construct clay.

I know how to create a simple 'press-print' design.

I know how to use ipads to experiment with photography, editing and adding effects.

Using simple guidelines in your drawing can help improve the accuracy of your finished artwork.

Creating slabs with clay. These can then be used to build structures. We will 'score' the joins.

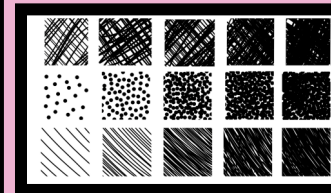

Key Vocabulary

Abstract Art—Modern art that does not attempt to represent an accurate image instead uses colours, shapes and forms.

Composition – The arrangement of visual elements.

Contrast—Opposites—light and dark

Cross-hatching—to shade (a drawing or the like) using many parallel and intersecting lines.

Expressions— the action of making one's thoughts or feelings known!

Guidelines – very light lines that are drawn before your main drawing. To aid you.

Printing block - The process of carving patterns, shapes and designs into a 'block'.

Proportions—the relationship between height, width and depth.

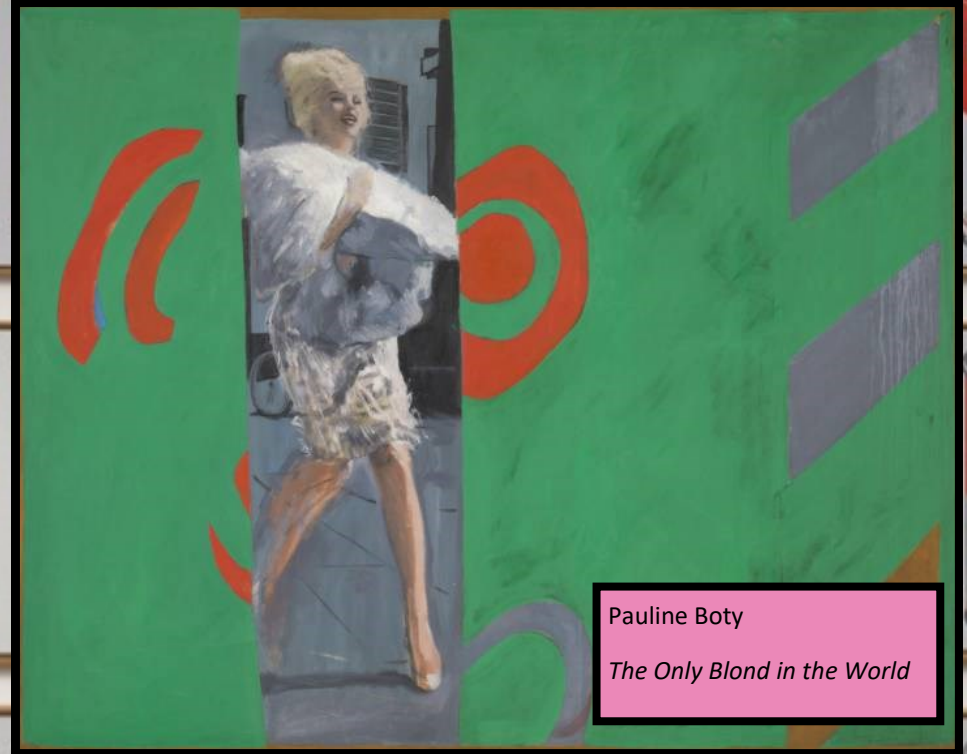

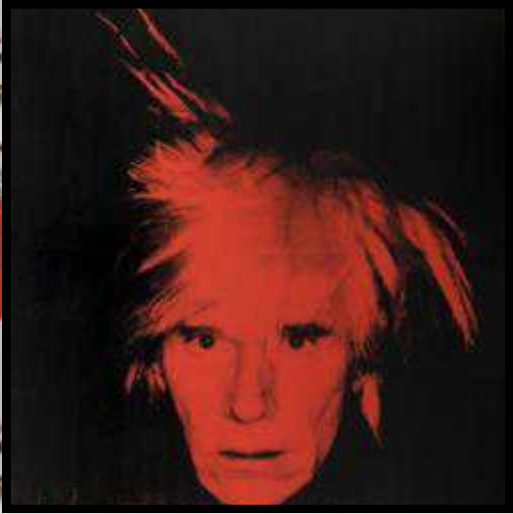

Slab-building—Using flat 'slabs' of clay to create a 3D form.

Slip – a liquid mixture of clay in water. Can be used to 'glue' clay together.

Template— A pattern used as a guide in making a form with accuracy.
