

"Fabulous Wildlife!"

Review date: 14.06.18

Yesterday I visited Beacon Hill Country Park and it was a lovely big place. It was a long walk but it was definitely worth it. The sculptures were well made and put a lot of thought into what they were going to make. What I really liked was the labyrinth with all of the beautiful flowers and all of the birds and animals like sheep, cows and alpacas. Just to let you know I think you should add an indoor and outdoor cafe.
